

innovative equipment screens

3 generations ahead of the next best solution

An affordable solution for equipment screening is finally here...

Envisor equipment screens now offer architects the flexibility to create affordable, elegant, **customized screening solutions** that integrate with their building design, all with **no rooftop penetration**.

Our patented equipment screens also provide a viable solution for **municipal screening code requirements** on everything from HVAC units to

chillers, air handlers, power exhausts, roof stacks, communication equipment, dumpsters - you name it!

Customizing a screen to fit your needs is easy...

Simply choose between canted or vertical, decide on a panel design, select a top trim (optional), and pick a color. It's that simple! **We can customize any feature** to your particular design requirements, including custom panel designs, custom colors, and custom top trim designs. If you don't see what you need, tell us what you want. We'll build it for you.

- Louver Panel Design
- Cove Top Trim
- Panel Color: Oyster
- Top Trim Color: Terra Cotta

U.S. Patent No. 5,664,484

Step 1: Choose a Canted or Vertical System

Envisor screens are the perfect alternative to parapet walls and they satisfy even the strictest screening code requirements. Both styles feature our patented attachment method, which secure our screens directly to the equipment with no rooftop penetration. Screen heights are available to screen virtually anything you desire.

Step 2: Decide on a Panel Design

Panels are available in **5 standard styles** allowing you to control the project without sacrificing the essential elements of the building design. The panels are constructed of thermoformed high impact ABS with a **co-extruded UV protective layer** on both sides. The panels are held firmly in place using a rust-free, double tracked aluminum rail system. This enables the panels to slide side-to-side for easy access to the unit during servicing and maintenance. Don't see a panel that fits your project? Tell us and we'll make one that you design.

Step 3: Select a Top Trim (optional)

Decorative top trim options offer the flexibility to further customize the elegant appearance of the screens by **picking up on your building design elements** and incorporating those details into the screen itself. Although optional, they offer one more way to make screens part of the design, not part of the problem. We can manufacture any size and shape top trim you create.

Step 4: Pick a Designer Color

Our designer colors complement most architectural applications, but don't let standard colors limit your creativity. We have the ability to **match to any cross-referenced color specification**. Send us samples to match. We've even matched a color to a rock! *Colors shown are only approximate. Please call for actual samples.*

Step 5: Custom Designed Solutions
